

# Survey on the Environmental Sanitation (ES) Regime

Dear Community Care Partners,

We would like to invite you to participate in a survey on the Environmental Sanitation (ES) regime which NEA will be implementing progressively from June 2021.

## Aim

Feedback from this survey will assist MOH and AIC in:

1. Developing ES standards calibrated to the sector's operational needs and constraints
2. Understanding the challenges you may face in implementing these requirements

## Participation

We recommend that CCOs providing any of the services affected by the ES Regime submit **one** survey response for their organisation. These services are:

- Senior Activity Centres and Active Ageing Hubs
- Senior Care Centres and centre-based components of Integrated Home and Day Care services
- Day Hospices
- Psychiatric Day Centres, Psychiatric Rehabilitation Homes and Psychiatric Sheltered Homes

*Note: Nursing Homes are not included.*

A sample ES Programme with suggested baseline cleaning frequencies for premises is appended [here](#). Please refer to the ES Programme when completing the survey.

Click on the link below or scan the QR code to access the online survey:

<https://fs9.formsite.com/ExB95M/fhhyseymjq/index.html?1608013344608>

*For more optimal viewing, we suggest using a laptop or desktop to complete the survey.*

**We hope to receive your response by 5 February.**

For queries or assistance with this survey, please contact Dennis Cheok at [dennis.cheok@aic.sg](mailto:dennis.cheok@aic.sg). Thank you for your valuable feedback.
