

AIC AM Finder

Welcome to AM Finder!

Here, you can find AIC Account Managers for the various partners that AIC engages and works with. These partners range from those in Community Care, Primary Care, to sectors beyond – such as government agencies and corporate organisations.

The OneAIC Account Management Framework facilitates coordination and consistency in engagements by designating a single point-of-contact in AIC for each partner.

We hope that with improved communication and coordination, we can strengthen relationships and collaborations with our Partners to bring about better outcomes for those we serve.

Find out each partner's designated Account Manager by scanning the respective QR Codes or clicking on the relevant category below:
